If you've completed or expect to complete a two-year college associate degree or 60 college semester hours, the Army can offer you a guaranteed job, financial assistance for continuing education and the experience you'll need to work in private industry.

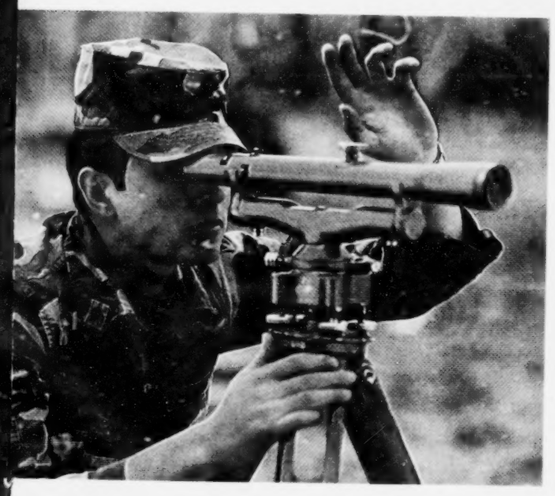
You'll also have an opportunity for advanced skill training, and you'll earn good pay and benefits while you learn. And because you've finished two years of college, you'll start out ahead of someone with no advanced education.

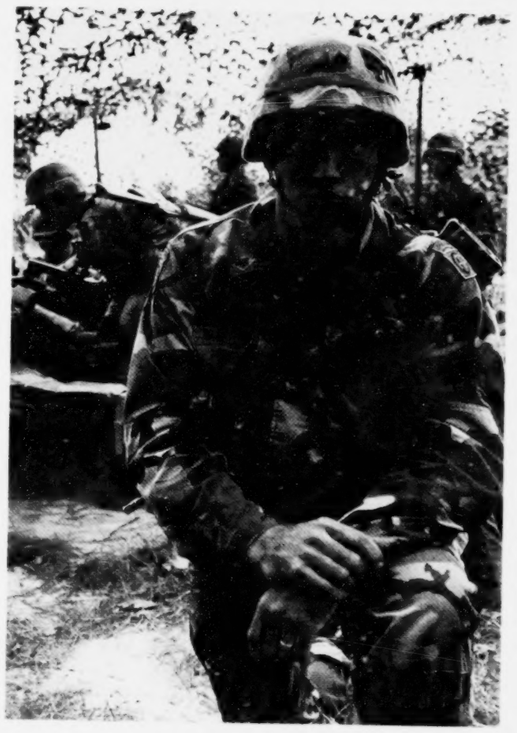
Today's Army could be the career move you need at the time you need it most.

ENLIST AT A HIGHER RANK AND PAY

You've invested two years pursuing an education and a better future. The Army recognizes your efforts by assigning you an advanced rank and pay grade when you enlist.

Under the Accelerated Promotion for Education program, a student with 60 or more college semester hours can join the Army as an E-3 instead of the usual pay grade of E-1. That means a higher

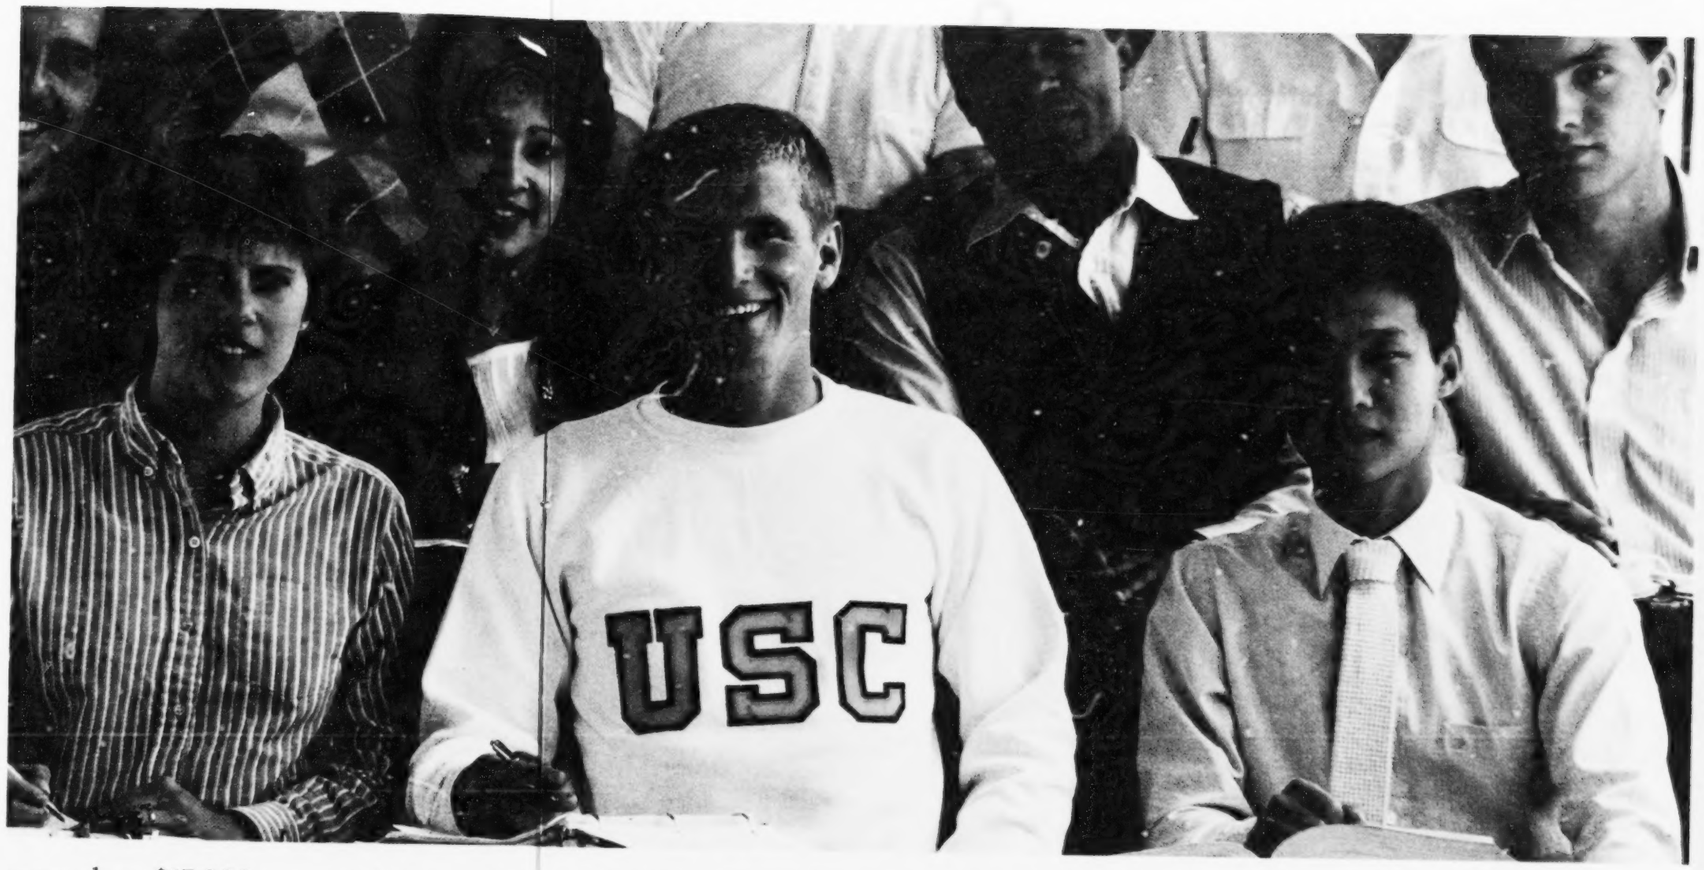




rank and starting salary and the increased responsibility that goes with your rank. What's more, you may be eligible for promotion to E-4 after just 12 months.

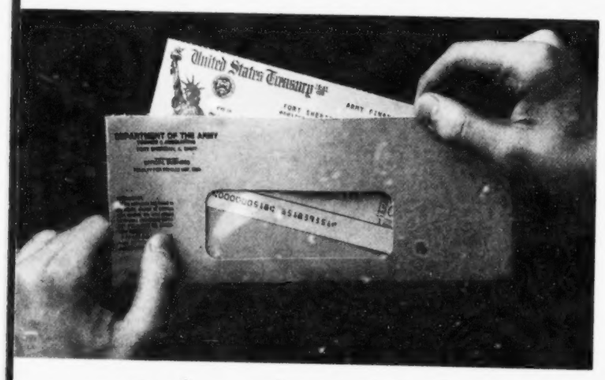
With each promotion come new opportunities to learn, to grow and to gain valuable experience it could take years to accumulate in private industry.

GET FINANCIAL HELP TO COMPLETE YOUR EDUCATION



The Army believes that every soldier should be encouraged to pursue an education to the highest level of his or her ability. That's why the Army offers financial assistance to help with the cost of higher education.

Educational Assistance Program
The Army appreciates the value of your two years of college training. And because we want you to use that knowledge in the Army, there's a savings program available

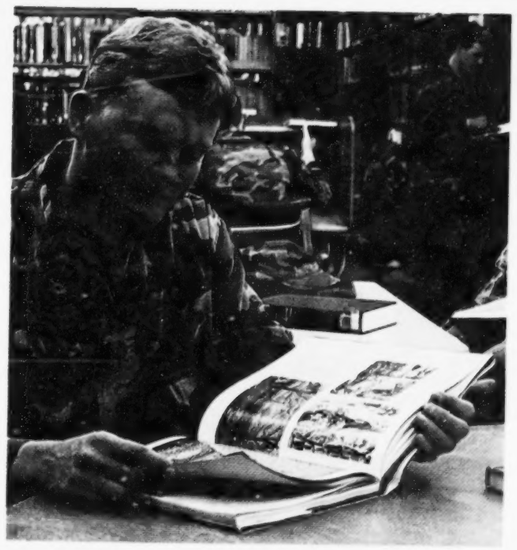


to students who qualify. Here's how it works.

When you enlist in the Army for two years, you are automatically enrolled in an educational assistance program, in which the government will match your contributions for college, more than 6 to 1. Then, if you agree to serve where you're needed most, you may be eligible for an educational assistance bonus of up to $8,000. That can add up to more than $17,000 to complete your education.

When you do return to college, you may be eligible to enroll in Army ROTC at the third-year level and receive a monthly income of $100. And when college is over, you could begin a career as an officer in the U.S. Army.

Whether you pursue a career in private industry or take advantage of what the Army has to offer, the Army's educational assistance program may be the best way to handle the cost of completing your college education.



Loan Repayment
If you took out a loan to pay for your first two years of college, the Army may be able to help you repay that debt. Provided you went to school on a Perkins Loan or a Stafford Loan, made after October 1, 1975 (and your loan is not currently in default), you may be eligible for loan repayment assistance at the rate of $1,500 or one-third of the loan for each year of service, whichever is greater. You may not participate in both the educational assistance and loan repayment programs simultaneously.

Tuition Assistance
If you want to pursue your college education while you're in the Army, there's a tuition assistance program that can help. You may be able to attend classes part-time, in your off-duty hours, and the government may pay a part of your tuition, for approved courses.

USE WHAT YOU'VE LEARNED OR LEARN SOMETHING NEW

During your two years of college, you may have studied in an area you'd like to learn more about. The Army offers training in hundreds of different specialties, and probably has one that's the same as or similar to the one you studied. The chart you see at the right shows a small sample of the Army specialties that correspond to two-year college fields of study.

You'll Get Expert Training

Whether you pursue an area you've studied or decide to try something new, the Army provides excellent skill training in a wide range of specialties. And whether your interests run to electronics and avionics or to data processing and communications, there's a program to suit your needs. Here's how it works.

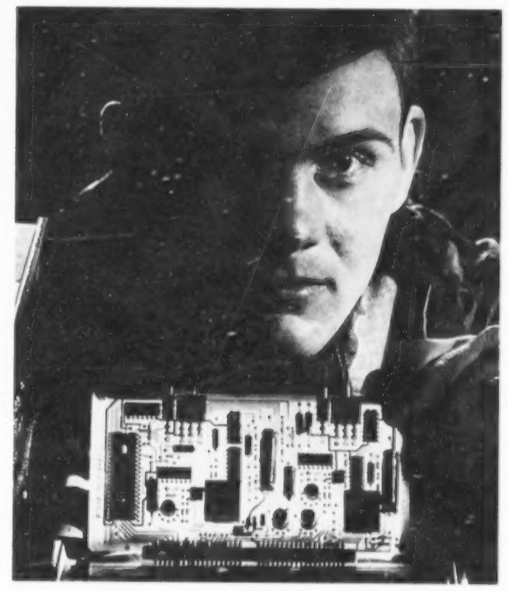
Let's say you enlist for training in Communications-Electronics Operations. You'll join the Army as an E-3 and learn the basics of soldiering, followed by advanced training. That's when you learn the fundamentals of multichannel communications equipment and operation. You could be working in the classroom, in the field, or in a modern communications center, using the most sophisticated electronics equipment available. Your instructors will be experts in their field, employing the most up-to-date training techniques. When you've finished advanced training, you'll begin work and start accumulating on-the-job experience.

General Field of Study	Army Specialty
Business	Accounting Specialist Personnel Management Finance Specialist
Aviation	AVIONIC Navigation and Flight Control Equipment Repairer AVIONIC Mechanic Ground Control Approach Radar Repairer
Electronics	Tactical Microwave Systems Repairer Electronic Mechanic Electronic Instrument Repairer
Computer Science	Computer/Machine Operator Programmer/Analyst Computer Repairer
Medical Services	Dental Specialist X-Ray Specialist Medical Lab Specialist
Public Relations and Radio/Television	Journalist Audio/TV Specialist Motion Picture Specialist Audio-Visual Equipment Repairer
Food Services	Food Service Specialist Hospital Food Service Specialist

You'll find a more complete listing of Army occupations at the back of this brochure.

Get the Training You Want Guaranteed

If you want to be assured of training in a particular specialty, and you can qualify for it, you can enlist under the Delayed Entry Program. Then if the training you want isn't immediately available, you can wait



up to a year for an opening and have your selection guaranteed in writing. The Delayed Entry Program is the Army's way of doing everything possible to see that you receive training in a skill of your choice.

Experience You Won't Find Anywhere Else

The work record you compile in the Army is the kind that can make your resume stand out from all the rest. A two-year enlistment will provide you with a combination of expert training and actual job experience that says you're ready for whatever an employer has to offer.

But there's another kind of experience that sets a soldier apart from the other job candidates. In the Army, you learn to work both with a group and as a group leader—getting the job done right and on time.

Your responsibilities also increase with your rank, providing you with new challenges and the opportunity to prove you can handle them.

When you list this kind of experience and responsibility on a resume, it tells a potential employer that you're competent, reliable and that you interact well with others. It's a record that will put you out in front of the competition.

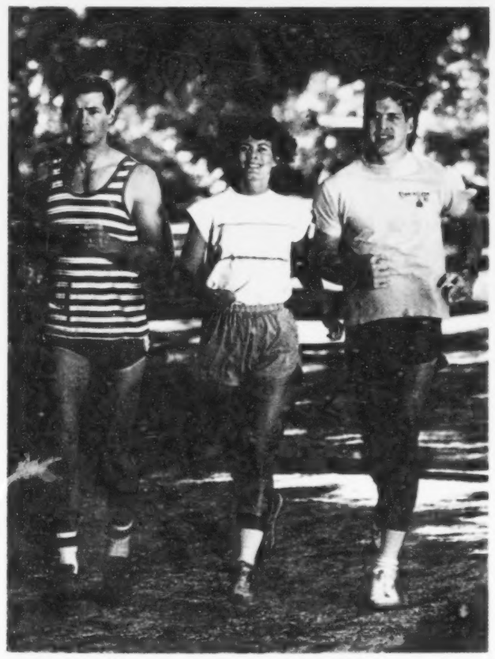
A BENEFIT PACKAGE THAT'S HARD TO BEAT

In addition to financial help with your education, the Army offers a benefit package that would be hard to match in private industry.

Your benefits begin with free medical and dental care. You'll also earn 30 days paid vacation each year. That's enough time to relax, visit relatives, or travel to places you may have only dreamed of seeing.

In the Army, your travel opportunities aren't limited to vacation time. You could be stationed in any of hundreds of locations around the country or overseas. And while the Army doesn't promise an "eight-to-five" day, there will still be plenty of time to visit nearby cities and attractions, and to explore the surrounding countryside.

When you're on-post, you'll find that most Army bases have extensive sports and recreation facilities that you can take advantage of. There are also theaters and clubs available to you at a considerable discount. And depending on where you're stationed, there are often tour or recreation packages for off-post facilities, usually at a reduced rate.



YOUR EDUCATION MEANS MORE IN THE ARMY

If you've completed two years of college, chances are you'll want to begin a career tht can help you realize your plans for the future.

In the Army, your education qualifies you for a good job, advanced rank and pay, and the opportunity for promotion. While you serve, you can also be accumulating thousands of dollars for college or repaying a college loan.

Whether your goal is to earn a four-year college degree or to establish yourself in a good job, the Army can help you develop a skill and provide valuable job experience—the kind you'll need to grow in an Army career or to get the civilian job you really want.

With two years of college behind you, the Army could be the best investment you can make for your future.

ARMY OCCUPATIONS

Accounting specialist
Administrative specialist
Aerial intelligence specialist
*Aeroscout observer
†AH 1 attack helicopter technical inspector
AH 64 attack helicopter repairer
†AH 64 attack helicopter technical inspector
Airbrake repairer (Reserve Forces)
†Aircraft armaments technical inspector
†Aircraft components repair supervisor
Aircraft electrician
Aircraft fire control repairer
†Aircraft maintenance senior sergeant
Aircraft pneudraulics repairer
Aircraft powerplant repairer
Aircraft powertrain repairer
Aircraft structural repairer
Aircraft weapon systems repairer
Air defense artillery operations and intelligence assistant
†Air defense artillery senior sergeant
Air defense radar repairer
Air traffic control radar controller
Air traffic control tower operator
Air traffic control systems, subsystems and equipment repairer
Ammunition inspector
Ammunition specialist
Ammunition stock control and accounting specialist
†Ammunition supervisor
Animal care specialist
ANT/SQ 73 ADA command & control system operator/repairer
†Armament/fire control maintenance supervisor
*/†Armor senior sergeant
Artillery repairer
*Atomic demolition munitions specialist
Attack helicopter repairer
Audio television specialist
†Audiovisual chief
Audiovisual equipment repairer
Automatic data communications switching center specialist
Automatic digital message switch equipment repairer
Automatic test equipment operator/maintainer
Avionic communication equipment repairer
†Avionic equipment maintenance supervisor
Avionic mechanic
Avionic navigation and flight control equipment repairer
Avionic special equipment repairer
†Bands senior sergeant
Baritone or euphonium player
Bassoon player
Behavioral sciences specialist
Biological sciences assistant
†Biomedical equipment specialist, advanced
Biomedical equipment specialist, basic
*BRADLEY fighting vehicle system mechanic
*BRADLEY fighting vehicle system turret mechanic
*Bridge crewmember
Broadcast journalist
Calibration specialist
*Cannon crewmember
*Cannon fire direction specialist
Cardiac specialist
Cargo specialist
Carpentry and masonry specialist
Cartographer
*Cavalry scout
*CHAPARRAL crewmember
CHAPARRAL/REDEYE repairer
*CHAPARRAL system mechanic
Chapel activities specialist
Chemical operations specialist
Clarinet player
*Combat engineer
*/†Combat engineering senior sergeant
Combat signaler
†Command sergeant major
†Communications-electronics maintenance chief
†Communications-electronics operations chief
Communications-electronics radio repairer
†Communications equipment maintenance chief
†Communications maintenance support chief
Communications systems/circuit controller
†Communications systems/circuit controller supervisor
†Communications system supervisor
Computer/machine operator
†Computerized systems maintenance chief
†COMSEC maintenance chief
Concrete and asphalt equipment operator
†Construction engineering supervisor
Construction equipment repairer
†Construction equipment supervisor
Construction surveyor
Coronet or trumpet player
Correctional specialist
Counterintelligence agent
†Counterintelligence/human intelligence senior sergeant
Counter signals intelligence specialist
†Court reporter
Crane operator
†Cytology specialist
DAS3 computer systems repairer
†Data processing NCO
*Defense acquisition radar operator
Dental laboratory specialist
Dental specialist
Digital communications equipment repairer
Digital equipment maintenance chief
*Diver
Ear, nose, throat specialist
Electric bass player
†Electronic equipment maintenance chief
Electronic warfare/intercept aerial sensor repairer
Electronic warfare/intercept aviation system repairer
Electronic warfare/intercept strategic processing and storage subsystems repairer
Electronic warfare/intercept strategic receiving subsystems repairer
†Electronic warfare/intercept strategic system analyst and command and control subsystem repairer
†Electronic warfare/intercept systems maintenance supervisor
Electronic warfare/intercept tactical system repairer
Electronic warfare/signal intelligence analyst
†Electronic warfare/signal intelligence chief
Electronic warfare/signal intelligence emitter identifier/locator
Electronic warfare/signal intelligence morse interceptor
Electronic warfare/signal intelligence noncommunications interceptor
Electronic warfare/signal intelligence non-morse interceptor
Electronic warfare/signal intelligence voice interceptor
*Engineer tracked vehicle crewmember
Equipment records and parts specialist
EW/Int strategic receiving subsystems repairer
Executive administrative assistant
Explosive ordnance disposal specialist
Eye specialist
FA tactical fire direction repairer
Fabric repair specialist
Field artillery computer repairer
Field artillery digital systems repairer
*Field artillery firefinder radar operator
Field artillery meteorological crewmember
*Field artillery radar crewmember (Reserve Forces)
†Field artillery senior sergeant
*Field artillery surveyor
*Field artillery target acquisition specialist (Reserve Forces)
Field COMSEC equipment repairer
*Fighting vehicle infantryman
†Finance senior sergeant
Finance specialist
Fire control instrument repairer
Fire control systems repairer
Firefighter
*Fire support specialist
Fixed COMSEC equipment repairer
Flight operations coordinator
Flute or piccolo player
Food service specialist
Forward area alerting radar repairer
French horn player
Fuel and electrical systems repairer
General construction equipment operator
†General engineering supervisor
Graves registration specialist
Ground controlled approach radar repairer
*Ground surveillance system operator
Guitar player
HAWK continuous wave radar repairer
HAWK fire control crewmember
HAWK fire control mechanic
HAWK fire control repairer
HAWK firing section mechanic
HAWK information coordination central mechanic
HAWK launcher/mechanic systems repairer
HAWK maintenance chief
HAWK master mechanic
HAWK missile crewmember
HAWK pulse radar repairer
†Health physics specialist
*Heavy antiarmor weapons infantryman
Heavy construction equipment operator
†Heavy lift helicopter repairer
†Heavy lift helicopter technical inspector
Heavy wheel vehicle mechanic
Hospital food service specialist
†IBM automatic data processing systems repairer
Illustrator
Imagery analyst
*Indirect fire infantryman
*Infantryman
†Infantry senior sergeant
Intelligence analyst
†Intelligence senior sergeant
*Interior electrician
Interrogator
Journalist
LANCE crewmember
LANCE systems repairer
†Land combat/air defense systems maintenance chief
Land combat support system test specialist/LANCE repairer
Laundry and bath specialist
Legal specialist
*Light air defense artillery crewmember (Reserve Forces)
Light wheel vehicle mechanic
Locomotive electrician (Reserve Forces)
Locomotive operator (Reserve Forces)
Locomotive repairer (Reserve Forces)
Machinist
*MANPADS crewmember
†Marine senior sergeant
Material control and accounting specialist
Material quality specialist
Material storage and handling specialist
†Mechanical maintenance supervisor
Medical laboratory specialist
†Medical NCO
Medical specialist
Medical supply specialist
Medium helicopter repairer
†Medium helicopter technical inspector
Metal worker
Military police
Motion picture specialist
Motor transport operator
Multichannel communications equipment operator
*Multiple launch rocket system crewmember
*Multiple launch rocket system/LANCE operation/fire direction specialist
Multiple launch rocket system repairer
*M1 ABRAMS armor crewmember
*M1 ABRAMS tank systems mechanic
*M1 ABRAMS tank turret mechanic
*M1 armor crewmember
*M48 M60 armor crewmember
*M60 A1/A3 tank system mechanic
*M60 tank turret mechanic
NIKE-HERCULES custodial mechanic
†Nuclear medicine specialist
Nuclear weapons maintenance specialist
Oboe player
Observation airplane repairer
†Observation airplane technical inspector
Observation/scout helicopter repairer
†Observation/scout helicopter technical inspector
Occupational therapy specialist
Office machine repairer
Operating room specialist
Optical laboratory specialist
Orthopedic specialist
Orthotic specialist
Parachute rigger
Patient administration specialist
PATRIOT missile crewmember
PATRIOT operator and system mechanic
Percussion player
Personnel actions specialist
Personnel administration specialist
Personnel information system management specialist
Personnel management specialist
Personnel records specialist
†Personnel sergeant
Petroleum laboratory specialist
Petroleum supply specialist

Pharmacy specialist
Photo and layout specialist
Photolithographer
Physical activities specialist
Physical therapy specialist
Piano player
*Plumber
Power generation equipment repairer
Practical nurse
Preventive medicine specialist
Prime power production specialist
Printing and bindery specialist
Programmer/analyst
Psychiatric specialist
Psychological operations specialist
†Public affairs/audiovisual chief
Quarrying specialist
Quartermaster and chemical equipment repairer
†Radar/special electronic devices
Radio/television systems specialist
Railway car repairer (Reserve Forces)
Railway movement coordinator (Reserve Forces)
Railway section repairer (Reserve Forces)
†Railway senior sergeant (Reserve Forces)
†Remotely piloted vehicle crewmember
Respiratory specialist
*ROLAND systems crewmember (Reserve Forces)
*ROLAND systems field maintenance test sets repairer (Reserve Forces)
*ROLAND systems mechanic (Reserve Forces)
*ROLAND systems repairer (Reserve Forces)
Satellite communications equipment repairer
†Satellite/microwave communications chief
Saxophone player
Scout helicopter repairer (NISH)
†Scout helicopter technical inspector (NISH)
*Self-propelled field artillery turret mechanic
†Senior supply sergeant
Single channel radio operator
Small arms repairer
†Special agent
Special bandperson
Special electronic devices repairer
*Special operations communications sergeant
*/†Special operations engineer sergeant
*/†Special operations intelligence sergeant
*/†Special operations medical sergeant
*/†Special operations senior sergeant
*/†Special operations weapons sergeant
†Special purpose equipment repairer
Still photographic specialist
Strategic microwave systems repairer
Structures specialist
Subsistence supply specialist
Tactical circuit controller
†Tactical communications chief
Tactical computer systems repairer
*Tactical fire operations specialist
Tactical satellite/microwave repairer
Tactical satellite/microwave systems operator
Tactical telecommunications center operator
Tactical transport helicopter repairer
†Tactical transport helicopter technical inspector
Tank turret repairer
Target acquisition/surveillance radar repairer
Technical drafting specialist
†Technical engineering supervisor
Telecommunications center operator
Telephone central office repairer
Teletypewriter equipment repairer
†Television/radio broadcast operations chief
Terrain analyst
†Topographic engineering supervisor
Topographic instrument repair specialist
Topographic surveyor
TOW/DRAGON repairer
Track vehicle mechanic
Track vehicle repairer
Traffic management coordinator
Train crewmember (Reserve Forces)
*Transmission and distribution specialist
Transportable automatic switching systems operator/maintainer
†Transportation senior sergeant
Trombone player
Tuba player
Turbine engine driven generator repairer
Unit level communications maintainer
Unit supply specialist
Utilities equipment repairer
Utility/cargo airplane repairer
†Utility/cargo airplane technical inspector
Utility helicopter repairer
†Utility helicopter technical inspector
Veterinary food inspection specialist
VULCAN crewmember
VULCAN repairer
*VULCAN system mechanic
Watercraft engineer
Watercraft operator
Water treatment specialist
Wheel vehicle repairer
Wire systems installer
X-ray specialist

*MOS not currently available to women
†Non-entry MOS
